

WELCOME St Brigid's School

LOVE | PEACE | LEARNING

Belonging | Respect | Diversity | Compassion

LOVE | PEACE | LEARNING

From the Principal...

Dear Families,

As an educator and parent, I understand that choosing a school for your child is one of the most important decisions you will make. We all want our children to flourish, be happy, capable, confident and be the best version of themselves.

St Brigid's School is a faith filled community and works in partnership with our families to educate and nurture our students. We touch the heart of others through our connections between faith and action. St Brigid's School motto of Love, Peace and Learning is underpinned by our school's Mission "We are Heart People who are faith filled in love, who reverence relationships in peace, who pursue excellence in learning and touch the Heart of all."

Through our commitment to pursuing excellence in Learning, we provide quality learning opportunities for all students. Together we will innovate, create, think critically, collaborate, problem solve and question, with the desire of making a difference in the world in which we live. Our Vision for our community is to provide a high-quality education in a loving community that spiritually and academically equips, challenges and inspired all our students to be leaders for the world God desires.

I revel in the opportunity to share this journey with you at St Brigid's School.

Your sincerely
Shannon Correll

Shannon Correll
Principal

The school implements a number of programs to support the learning and wellbeing of all students. We also provide intervention programs for those students who need extra support.

Students have access to a wide range of resources and opportunities within the school. We have a well-resourced Library, a performing arts room where students engage in music, drama, dance and private music lessons.

There are many opportunities for students to engage in different learning opportunities within the school. This could be through STEM, digital technologies and design technologies, art and many more.

Students participate in specialised Physical Education Lessons, after school sport coaching sessions and participate in different inter school activities.

RAISING HEARTS AND MINDS
